Participant, University of the Philippines’ 7th National Electrical, Electronics, Computer and Communications Engineering Conference (December 8, 2006)

Skills and Interests: I can converse and write in English, Filipino, Mandarin and Fookien. My involvement in a family business helped me a lot in shaping the value of time management; hence, I get to balance and prioritize studies (as well as accomplishing errands during my free time), family work and recreation. Moreover, I am willing to execute any assigned tasks (with the help of participation in various school organizations) and I can finish them on time; hence, my classmates trust me as the class representative. I am proficient in several Microsoft Office applications, quite well in C++ and a bit of Photoshop. I enjoy walking, jogging, playing some basketball and surfing the net during my spare time. I would love to travel and explore in different places around the country and around the world.
