Ten Outstanding Students of Angeles City (2003)
Gerry Roxas Leadership Award (2003)

Skills: I have fairly good communications skills both in written and oral English and Filipino. I have extensive hands on experience on Linux distributions mainly with Ubuntu. I also have hands on experience on local area network troubleshooting and set up. I also have programming experience using C++. I am currently training in the use of GSM modems to receive/transmit SMS and MMS.

Interests: I enjoy spending time with my classmates and friends. But when I'm not with them, I spend time in front of my computer, trying out new things with it like new Linux distribution releases, new applications and the like. I also see to it that I am fit and healthy by hitting the gym whenever I have the time and playing tennis or basketball every once in a while.
